We've been taking our cars to him for years and he's someone we really trust. Not only is he trustworthy, but he gives us by far the best deal around. This last time he saved me $500 from my original estimate at another store. I know I'll come here again when my next car problems go up, you hope you will too. I came here because my exhaust fell off the welding point on the multiple, I didn't have the car very long and when he got it up he pointed out to me that the guy who had the car in front of me broke the outlet and that he was welding a bunch of wrong parts there and it was missing parts. I was a little broke, but he told me that would he only charge me 50$ to fix it all the way it should be. He did this job for a 5th of the price Midas would have charged. He was a very nice guy and I would recommend him to anyone with exhaust need. Had some exhaust hangers snap off because my car is old and I knock it around a lot. I was able to slip in without an appointment because it was a quick job, and I was in and out in about twenty minutes. Super fast and friendly service. Guess this place for work and any welding you might need! Mike is super solid. I dropped off a car today for exhaust work and planned to pick it up tomorrow, but he did it in a day!!! Before I left my house, I bled my tank for my bags and tightened the grounds. When I picked it up, the bags wouldn't turn on (power came out of the relay) and it wasn't drivable. On a Sunday, he was cool enough to wait 20 minutes while my wife drove me the trunk key so we could manually fill my bags until I could solve the problem at home. He also produced me a skid plate and tied a bracket I didn't notice. Thanks, man!!! The owner was great. Very easy to deal with. He helped me get into my mini-vault that was broken and not opened in 10 years. Its normal rate is $100 an hour. He charged me just a fraction of the costs he could have charged. Thanks for the help!!! Once again the guys came through with a wonderful outlet. Great price great service What else can you want. I bring in all my classic cars here. Don't go to the other over prized stores Porters are the only place to !!! Thanks again for my 68 buick back to life !!
